NNTW Fall 2020 Webinar Series: Empowering the New Mobility Workforce

Join the NNTW Regional Transportation Workforce Centers on this 4-part webinar journey that explores how to achieve effective student career engagement and priority workforce development during the pandemic and the long road to recovery ahead. The series is free, but you must register in advance for each session. Connection instructions will be sent out in advance of each session. NTTD members and partners are featured!

October 7th, 2020:

Engaging Multidisciplinary Student Talent to Meet Agency Needs

October 27th, 2020:

State of the Transportation & Mobility Workforce: Highlights from the 2020 Report

November 18th, 2020:

The Role of Industry-Academia Partnerships in Preparing K-12 Students for Transportation Careers

December 3rd, 2020:

Providing Training and Education During the Pandemic: Challenges and Solutions at State DOTs

Download a flyer of the complete series [here](#).

October 7th, 2020: 1-3p Eastern (11am – 12pm Mountain)

Engaging Multidisciplinary Student Talent to Meet Agency Needs

With a shrinking tax base, fewer resources, and the urgency of meeting public needs during the COVID crisis, many local agencies are overwhelmed. And while efforts to attract and develop the future workforce may be set aside for now, they don't have to be. This webinar showcases a model for university/public agency partnerships that can both augment agency capacity and provide opportunities for student professional development and career exposure.

Event Host: The West Region Transportation Workforce Center, Montana State U

Featured Speakers:

Susan Gallagher, Director, West Region Transportation Workforce Center

Susanne Cowan, Professor, Montana State University School of Architecture

Larissa Morales, Grad Student, Montana State University School of Architecture

Danielle Hess, City of Bozeman Neighborhoods Coordinator

October 27th, 2020: 1-2pm Eastern (10 – 11am Pacific)

State of the Transportation and Mobility Workforce: Highlights from the 2020 Report

Supplementing traditional labor market data with strategic workforce research and action planning, the 2020 State of the Transportation and Mobility Workforce report outlines a series of practical initiatives designed to address the transportation workforce needs of the southwest region. This webinar highlights these initiatives and offers guidance on how to move the transportation industry into the future—particularly during the long road to recovery ahead.

Event Host: The Southwest Transportation Workforce Center, Cal State University Long Beach

Featured Speakers:

Tom O'Brien, Director, Southwest Transportation Workforce Center

Tyler Reeb, Associate Director, Southwest Transportation Workforce Center

Special guest presenters from Pima Community College, AZ

November 18th, 2020: 2-5pm Eastern (3 – 4pm Central)

The Role of Industry-Academia Partnerships in Preparing K-12 Students for Transportation Careers

Building engagement and creating positive impact on a future workforce requires strategic, collaborative efforts between K-12, higher education, and industry. This webinar features the T-STEM Academy at East High School in Memphis, TN. Now in its 4th year, this program demonstrates how a successful model of transformative partnerships can lead to a unique, industry-engaged, STEM-for-all student experience. Join us as we explore this innovative model, driving factors behind the program's success, and lessons learned along the way.

Event Host: The Southeast Transportation Workforce Center, University of Memphis

Featured Speakers:

Stephanie Ivey, Director, Southeast Transportation Workforce Center
Lischa Brooks, Executive Principal, T-STEM Academy at East High School
Keith Booker, CCTE/STEM Lead, T-STEM Academy at East High School
Special guest student presenter from the T-STEM Academy at East High School
Special guest industry speaker

December 3rd, 2020: 1pm – 2pm Eastern

Providing Training and Education During the Pandemic: Challenges and Solutions at State DOTs

This webinar shares the experiences and problem-solving approaches to maintaining effective training programs that meet the needs of employees and their agencies, with a look at:

- *How TDOT is adapting class activities to a virtual environment and deciding which programs to move forward, all while dealing with technical issues and pandemic restrictions.*
- *How Vermont's Strategic Workforce Committees are connecting with employees across the state regarding Learning & Development, Manager & Supervisor Resources, Employee Retention & Recognition, and Talent Acquisition.*
- *CDOT's process of problem ID and solution, course/program prioritization, program reinvention and rollout as a response to COVID restrictions, and highlighting some of the tools used to register, track, and report on training completions.*

Event Host: The Northeast Transportation Workforce Center, University of Vermont Transportation Research Center & Rutgers University Center for Advanced Infrastructure and Transportation

Featured Speakers:

Elena L. Knaffl, Training Specialist, Tennessee Department of Transportation
Colleen Montague, Learning Development & Support Manager, VT AOT
Kevin MacVittie, Maintenance & Operations Training Manager, CDOT

Register online now at: <https://tinyurl.com/yy9cpd39>

And don't forget our continuing professional development offerings building on the 2020 NTTD-NLTAPA conference:

October 21, 2020 (10:00 AM Central) –

Effective Learning: A Critical Exploration of the 70-20-10 Learning and Development Model

(brought to you by NTTD)

Presenter: ***Vivien Lattibeaudiere (AZDOT, Learning & Development)***

The 70-20-10 Learning and Development model suggests a proportional breakdown of how employees learn most effectively through combining formal, social and hands-on learning. Learn practical ways that you can apply this model to your training and development programs to maximize employee engagement, performance and retention.
